Intro

At Recorra, we understand the importance of clear, effective waste management in maintaining an organised and efficient workplace. We provide a wide variety of bins to cater to all your waste management needs. Our bins are available in multiple colours and styles, making it easy to segregate different types of waste and enhance recycling efforts.

Food 120

Food 200

Cardboard / Paper

- Tough plastic wheeled bins
- Colour coded to match our sacks, helping cleaners put the correct sacks in the correct bin

Food Bins

- Safe and hygienic storage
- Made from tough, durable plastic
- Full bin exchanges for clean empty bins at collection on-site, or hybrid services available

Bin name	Capacity	Sacks Capacity	Height (cm)	Width (cm)	Depth (cm)
Food 120	120L	2	96	55	48
Food 200	200L	3-4	105	58	67

*Rental price covers hire of the bin unit, it does not cover waste collection costs

Glass Bins

Glass wheeled bin

Glass crate

GLASS CRATE

- Waterproof crate with integral hinged lid keeps bottles tidy
- Full crate swapped for clean empty crate at collection
- No spillages or odours
- Capacity equivalent to 20 wine bottles

WHEELED BIN

- Supplied with lock and bottle bank style lid
- Full bin exchanges for clean empty at collection on-site, or hybrid services available
- Capacity equivalent to 80 wine bottles

Bin name	Capacity	Bottle cap	Height (cm)	Width (cm)	Depth (cm)
Glass crate	48L	20 wine bottles	27	59	38
Glass wheeled bin	240L	80 wine bottles	107	58	74
Glass wheeled bin	660L	220 wine bottles	121	137	78

Recycling Hub

The Recycling Hub helps buildings recycle a wider range of materials. Multiple recycling streams can be placed in a single container, without risking contamination, through our pre-paid sack services.

Recycling Hub 1100

A central consolidation hub for occupiers to recycle even more by utilising recycling streams outside of the building waste provision. Occupiers only pay for what they use buying our pre-paid sack services and placing the sacks, regardless of material stream, in this consolidation bin. Recycling stats are then added to the building recycling report.

Streams Available:

- Cartons
- Circular box sacks
- Coffee Cups
- Coffee Grounds
- Compostable Packaging
- Food
- Paper
- Paper Towels
- Textiles & Clothing

Bin name	Capacity	Sacks Capacity	Height (cm)	Width (cm)	Depth (cm)
Recycling Hub 660	660	7-8	121	137	78
Recycling Hub 1100	1100	15	135	137	108

Confidential Shredding Bins

Secure 240

- Securely stores confidential documents until they are shredded
- Secure locking system and security feed slot to protect your discarded documents
- Made from tough, durable plastic IT crates/cages
- Our IT crate is compact for convenient storage
- The IT roll cage is perfect for larger quantities of IT and electrical equipment
- The cage is on wheels and is useful for bulking up equipment that is stored in various locations

Bin name	Capacity	Height (cm)	Width (cm)	Depth (cm)
Secure 240	240	107	58	74

*Price includes collection, data wiping and reuse / recycling

1 Max 2 x hard drives / data bearing items. Additional hard drives / data bearing items charged at a discounted rate
 2 Max 20 x hard drives / data bearing items, additional hard drives / data bearing items charged at a discounted rate

IT Crates / Cages

IT crate

IT cage

- Our IT crate is compact for convenient storage
- The crate holds the equivalent of 10 laptops
- The IT roll cage is perfect for larger quantities of IT and electrical equipment
- The cage is on wheels and is useful for bulking up equipment that is stored in various locations

Bin name	Capacity (litres)	Height (cm)	Width (cm)	Depth (cm)	Price*
IT crate	90	60	40	38	£30
IT cage	1055	169	74	85	£175

Fluorescent Tube Bins

Fluorescent tubes are classed as hazardous waste, as they contain highly toxic metals and are therefore not permitted to be disposed of with normal waste. Our service will ensure your tubes are collected safely and recycled correctly.

We recommend that medium frequency producers (50 – 200 tubes per quarter) use one of our specialist pipes (1 or 2 metres long) to ensure tubes are safely stored whilst awaiting collection.

For offices with larger quantities (over 200 tubes per quarter) a collapsible pallet is the best solution. These containers are suitable for tubes up to 6' long and any other non-linear compact bulbs.

Bin name	Height (cm)	Width (cm)	Depth (cm)
Pipe 1m	100	30	30
Pipe 2m	200	30	30
Pallet	100	200	100

*Rental price covers hire of the bin unit, it does not cover waste collection costs

Note: If you only have occasional waste tubes Recorra can take them with your usual collection. Prices start from just 90p per tube. Pallet delivery is subject to lead time. For coffins, please contact customer services for a delivery time.

Recorra SmartWeigh

Within shared waste stores, it can be difficult to track how much waste each occupier/floor generates and to identify sources of contamination.

Recorra SmartWeigh combines weighing technology with smartphone software – developed by Trackersack in partnership with Recorra – to track floor level/occupier waste generation. This cost-effective system provides a novel alternative to bespoke equipment and having to weigh sacks by hand.

The data is all integrated into Recorra’s online portal, meaning all your waste statistics are in one place.

Bin Store Signage

Recorra supplies a range of bin store signage to help advise staff on what goes in each bin. These come in various sizes and materials to suit your exact requirements.

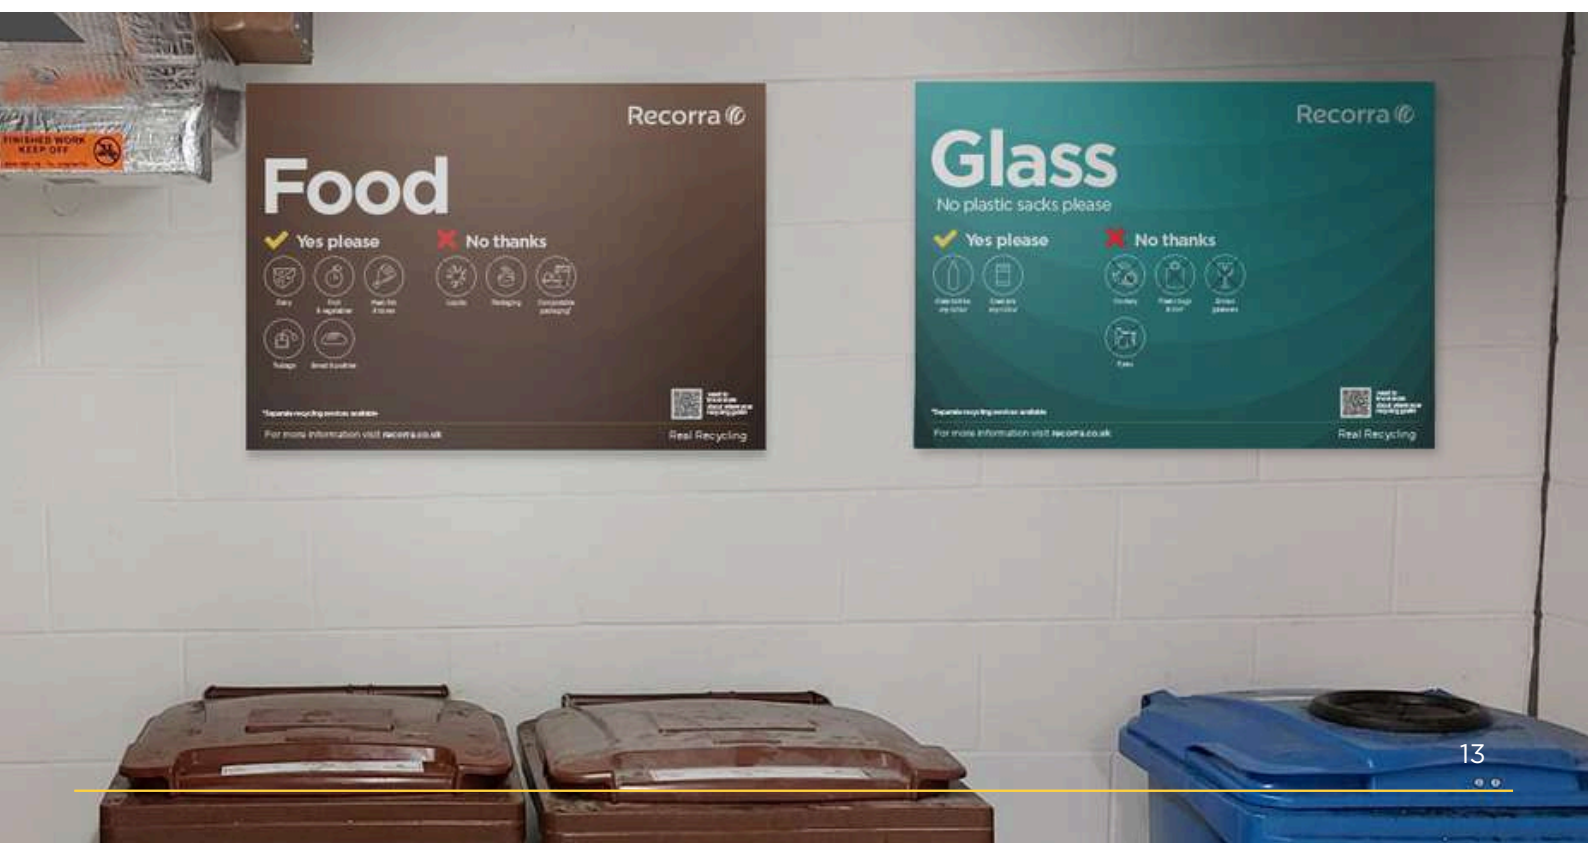

BIN STORE SIGNAGE A1

Colour-coded and simply designed, our A1 bin store signage is the perfect addition to your bin storage area. Signage is available in several different materials to suit your exact requirements and can also be designed bespoke to your business.

- Vinyl Bin Store Poster
- Rigid Plastic Bin Store Posters
- Aluminium Bin Store Posters

For full pricing and bulk discounts, please contact us or visit our website to view our standard designs.

Signage	Size	Unit price
Vinyl	A1	£20.00
Rigid plastic	Various	available upon request
Aluminium	Various	available upon request

BESPOKE BACKING BOARDS

To make your waste stores as eye-catching as possible, we can help design and install bespoke colour-coded backing boards for your bin store. Made from aluminium, these boards are hard-wearing and easy to clean.

- Bespoke size and design
- Bold, engaging, and easy to understand
- Site survey required

Please contact us to enquire about this bespoke service.

Next Generation Waste Stores

Waste stores have traditionally been considered as a 'means to an end', a space to store and discard of unwanted items.

When designed well, they can transform the way waste is managed throughout entire buildings and streamline processes for staff.

We work with clients to reimagine waste stores and use these spaces to help boost recycling, reduce contamination and obtain detailed data on building waste generation.

We take the stress away and advise on:

- Data
- Design
- Infrastructure
