

Carbon Reduction Award

Cutting down carbon is a key aspect of all truly sustainable and innovative businesses.

This award is for businesses that have achieved real change in carbon reduction, whether by increasing their recycling rates and volumes, purchasing recycled and low-carbon products, and/or being creative about building low-carbon initiatives into their operations.

Submit

Submission

Tell us about your organisation and its approach to carbon emission reduction in 2025.

Please include details about any or all of the following:

- Reduction in carbon emissions (%), year-on-year reduction in general waste (%), changes in waste service (e.g., diverting from general waste to recycling), and adoption of low-carbon technologies or services
- Ways you've been innovative or creative in your approach to carbon reduction, e.g., using LED lighting, smart thermostats, opting for paperless systems, etc.

Supporting details can be found on [MyRecorra](#), including:

- Your main carbon-related challenges and the targets you set to reduce emissions
- Actions you have taken to achieve your targets (e.g., introduction of new recycling streams, adopting low-carbon technologies, educational activities)
- Your plans to continue tackling carbon emissions for your business
