

**Jhon  
Peña**

MAPP, London Bridge City

## Submission

I'm proud to nominate Jhon Peña for Recorra's Waste Warrior Award. I have never met someone so dedicated to helping a site achieve its sustainability goals. Jhon's commitment goes well beyond waste: he champions improvements across energy consumption, water use, and the wider estate environment at London Bridge City.

Jhon and I have regular meetings to explore new ideas, set targets, and plan practical steps that lift sustainability performance. He is incredibly supportive in engaging both the site team and occupiers—often joining meetings with building managers and tenants to communicate clearly, answer questions, and turn intentions into action. His presence consistently drives better engagement and measurable progress.

What sets Jhon apart is his enthusiasm and creativity. He brings genuine excitement and passion to every initiative, and he is always proposing new niche recycling streams, fresh campaigns, and ambitious but achievable goals that move LBC in the right direction. He's a much-loved member of the site community because he listens, encourages, and empowers others to get involved.

Jhon is exactly what a Waste Warrior should be: proactive, collaborative, and relentlessly positive. His leadership and support have made a tangible difference across the estate. Thank you, Jhon, for your outstanding dedication and for inspiring everyone around you to aim higher.
